A FLORAL DICTIONARY

MONTANA LISIANTHUS FROM A TO Z

Montana Lisianthus has a lifelong tradition of introducing beauty to the world. From a careful commitment to the environment to the attentive selection of new varieties, all of our lisianthus are grown with care and consideration. We are consistently up at dawn to capture the golden light and select only the best. There is nothing like overlooking the colourful fields illuminated by the soft glow of the rising sun.

We are constantly amazed by the incredible diversity of our lisianthus. Having gathered so many beautiful words to describe their characteristics, for this brochure we decided to create our very own Montana dictionary. Divided into three chapters we are proud to show you their large range in shape, colour and special characteristics. Lost for words looking at your favourite variety? Simply glance through the pages of this booklet.

As with every edition of our brochure we are introducing new members of the Montana family. Chaconne soft pink represents one of our dreamiest pastels so far, while Celeb rich queen constantly impresses with her big blooms. Expanding our sunny tones are Alissa peach and Botanic apricot. And last but not least Rosanne terracotta and Alissa pink hanoi are some of our most ruffled lisianthus to date! We hope they inspire you just as much as they do us.

Frank, Corine, Jerom & Frank jr.

www.montanalisianthus.nl

green water, fresh flowers
Using water collected at rainy days keeps both our fields and the environment healthy.

family flower farm
Being a family-run flower farm, now a new generation is stepping up.

hand-picked
All of our flowers are picked by hand and sustainably packaged.

biological balance
Utilizing microbes and fungi, and green waste as nutrition we aim for a biological balance.
